CAREER OBJECTIVE

Final-year Computer Engineering student (graduating 2027) seeking a Software Development Engineer role. Experienced in building full-stack and AI-integrated applications using modern web technologies, REST APIs, and cloud platforms. Passionate about writing clean, efficient code and solving real-world problems through software.

EDUCATION

B.E. in Computer Engineering — Fr. Conceicao Rodrigues College of Engineering *2027 (Expected)*
12th Standard (HSC) — Maharashtra State Board *2023*
10th Standard (SSC) — Maharashtra State Board *2021*

TECHNICAL SKILLS

- Python, Java, C, SQL
- Node.js, Express.js, Flask, Next.js
- MongoDB, REST APIs
- Machine Learning (XGBoost, Scikit-learn), OpenAI APIs
- Android Studio, VS Code
- Linux, Windows, macOS

PROJECTS

FinSentinel – AI-Powered Real-Time Fraud Detection System

Built a full-stack fintech fraud detection platform to analyze financial transactions in real time. Implemented ML-based risk scoring using XGBoost, rule-based fraud detection, and explainable AI to surface model decisions transparently. Developed analytics dashboards and transaction monitoring with interactive frontend visualizations.
Technologies: *Python (Flask), Next.js, MongoDB, XGBoost, REST APIs, Scikit-learn* | GitHub

WhisperPen – AI-Powered Note-Taking Application

Developed a full-stack AI note-taking application integrating RESTful APIs for note management and AI services for text-to-speech, translation, and auto-tagging. Implemented backend error handling for API rate limits and optimized user workflows for seamless note creation and retrieval.
Technologies: *Node.js, Express.js, MongoDB, OpenAI APIs (TTS, Translation, Text Processing), REST APIs* | GitHub

CERTIFICATIONS

AWS Academy Graduate – Cloud Architecting April 2026
Google Cloud Career Launchpad – Cloud Engineer Track March 2026
NPTEL – Artificial Intelligence (AI) for Management Jan–Apr 2026
NPTEL – Computer Networks and Internet Protocol Jan–Apr 2026

SOFT SKILLS

- Problem understanding, breaking down complex challenges into structured solutions
- Effective written and verbal communication
- Team collaboration and adaptability
- Quick learner with attention to detail
