JESWIN CHACKO

Mumbai, India | (+91) 9987920113 | jeswinchacko06@gmail.com | LinkedIn | GitHub

CAREER OBJECTIVE

Motivated Computer Engineering student (graduating 2027) seeking an entry-level software development role. Experienced in building full-stack applications with AI/ML integration, REST APIs, and modern web technologies. Eager to contribute to impactful products while growing in a collaborative, fast-paced environment.

EDUCATION

B.E. in Computer Engineering — Fr. Conceicao Rodrigues College of Engineering *2027 (Expected)*

12th Standard (HSC) — Maharashtra State Board *2023*

10th Standard (SSC) — Maharashtra State Board *2021*

TECHNICAL SKILLS

- Python, Java, C, SQL
- Node.js, Express.js, Flask, Next.js
- MongoDB, REST APIs
- Machine Learning (XGBoost, Scikit-learn), OpenAI APIs
- Android Studio, VS Code
- Linux, Windows, macOS

PROJECTS

FinSentinel – AI-Powered Real-Time Fraud Detection System

Built a full-stack fintech fraud detection platform to analyze financial transactions in real time. Implemented ML-based risk scoring using XGBoost, rule-based fraud detection, and explainable AI to surface model decisions transparently. Developed analytics dashboards and transaction monitoring with interactive frontend visualizations.

Technologies: *Python (Flask), Next.js, MongoDB, XGBoost, REST APIs, Scikit-learn*

WhisperPen – AI-Powered Note-Taking Application

Developed a full-stack AI note-taking application integrating RESTful APIs for note management and AI services for text-to-speech, translation, and auto-tagging. Implemented backend error handling for API rate limits and optimized user workflows for seamless note creation and retrieval.

Technologies: *Node.js, Express.js, MongoDB, OpenAI APIs (TTS, Translation, Text Processing), REST APIs*

SOFT SKILLS

- Strong decision-making and analytical thinking
- Effective written and verbal communication
- Team collaboration and adaptability
- Quick learner with attention to detail

INTERESTS

- Football
- Cinema
